Nødtelefon: +45 82 12 12 12 (Giftlinjen, Bispebjerg Hospital)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification (Regulation (EC) No. 1272/2008)

Classification (Regulation (EC) No. 1272/2008)

Expl. 1.4

H204

Voluntary product information following the Safety Data Sheet format

According to Article 3 of Regulation No 1907/2006 of the European Parliament and of the Council (REACH), cartridges are considered to be an article consisting of three basic components:

Cartridge case, propellant charge (powder) and primer.

An inseparable part of the cartridge are dangerous mixtures inside (mixture in the primer and other mixture in the cartridge - propellant charge).

Safety data sheet in accordance with regulation (EC) No 1907/2006

Trade name: Cartridges 9x17mm, MAXXTech yellow, 50 pcs/box

Version: 2 / DK

Date revised: 11.12.2024

Substance number:: 21206

Replaces Version: 1 / DK

Print date: 10.04.2025

2.2. Label elements

Labelling according to regulation (EC) No 1272/2008

Hazard pictograms

Signal word

Warning

Hazard statements

H204 Fire or projection hazard.

Precautionary statements

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P234 Keep only in original packaging.
P240 Ground and bond container and receiving equipment.
P250.9 Do not subject to grinding/shock/friction.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P370+P372+P380+P373 In case of fire: Explosion risk. Evacuate area. DO NOT fight fire when fire reaches explosives.
P501 Dispose of contents/container to a hazardous or special waste collection point (problem waste collection point), in accordance with local, regional, national and/or international regulations.

2.3. Other hazards

Extreme risk of explosion by shock, friction, fire or other sources of ignition. /. The cartridge contains the potentially hazardous components (primer and propellant powder), which are hermetically sealed from the environment so that they can only be released by destroying the product. Cartridge is covered on the top by green, yellow or red marking compound. which are hermetically sealed from the environment so that they can only be released by destroying the product. / which are hermetically sealed from the environment so that they can only be released by destroying the product.. Heat or impact against the primer and strong mechanical stress that lead to damage to the cartridge case or mechanical attempts to remove the primer cap can lead to immediate ignition. which are hermetically sealed from the environment so that they can only be released by destroying the product.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical characterization

The cartridge consists of a copper alloy cartridge case and a small primer, Double bottom propellant charge with smokeless powder and marking agent.

Net mass of explosive substances per cartridge:

max. 0,5 g

Total mass per cartridge:

approx. 2,81 g

Hazardous ingredients

Other information

Nonhazardous additives <= 4% --- The product is an article within the meaning of Article 3 No. 3 of the REACH Regulation and thus not to be labelled according to the CLP regulation. The compilation of the Safety Data sheet is not required according to Article 31 REACH Regulation for articles and is done on a voluntary basis. --- articles and is done on a voluntary basis. General: Trajectory and flight direction of cartridges ignited outside weapons are not known. articles and is done on a voluntary basis.

SECTION 4: First aid measures**4.1. Description of first aid measures****General information**

In case of persistent symptoms consult doctor.

After inhalation

Ensure supply of fresh air. In the event of symptoms take medical treatment.

After skin contact

Wash skin with plenty of soap and water.

After eye contact

Separate eyelids, wash the eyes thoroughly with water (15 min.). In case of irritation consult an oculist.

After ingestion

Rinse out mouth and give plenty of water to drink. Never give anything by mouth to an unconscious person. Do not induce vomiting - aspiration hazard. Take medical treatment.

Adhere to personal protective measures when giving first aid

First aider: Pay attention to self-protection!

4.2. Most important symptoms and effects, both acute and delayed

Until now no symptoms known so far.

4.3. Indication of any immediate medical attention and special treatment needed

Hints for the physician / hazards

No further relevant information available.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

Water spray jet, Dry powder, Used from safe distance.

Non suitable extinguishing media

Full water jet

5.2. Special hazards arising from the substance or mixture

In case of combustion evolution of dangerous gases possible. In the event of fire the following can be released: dense black smoke; Exposure to decomposition products may be hazardous to health. Do not breathe fumes. Exposure to fire can cause containers to burst / explode.

5.3. Advice for firefighters

Special protective equipment for fire-fighting

In case of combustion use a suitable breathing apparatus. Wear protective clothing.

Other information

Cool endangered containers with water spray jet. Fire residues and contaminated fire-fighting water must be disposed of in accordance with the local regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Refer to protective measures listed in Sections 7 and 8. Use explosion-proof equipment/fittings and non-sparking tools. Take action to prevent static discharges. A propellant charge released (removed) from a cartridge is very poisonous when exposed to the skin and is poisonous when inhaled or swallowed. It is easily inflammable and there is danger of explosion. . In low layers and when not compressed they will quickly burn down. The primer is potentially very explosive. It is easily inflammable and there is danger of explosion.

6.2. Environmental precautions

Do not discharge into the drains/surface waters/groundwater.

6.3. Methods and material for containment and cleaning up

Pick up mechanically. Clean contaminated floors and objects thoroughly, observing environmental regulations.

6.4. Reference to other sections

Information regarding Safe handling, see Section 7. Information regarding personal protective measures, see Section 8. Information regarding waste disposal, see Section 13.

SECTION 10: Stability and reactivity**10.1. Reactivity**

Heat or blow onto primer cap will lead to the ignition of single cartridges.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

No hazardous reactions known.

10.4. Conditions to avoid

Keep away from: acid. Lye. Oil. aromatic carbon hydrides

10.5. Incompatible materials

None known

10.6. Hazardous decomposition products

The cloud following a reaction contains carbon monoxide and nitric gases. The deposits contain lead and barium compounds.

SECTION 11: Toxicological information**11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008****Acute oral toxicity**

Remarks Based on available data, the classification criteria are not met.

Acute dermal toxicity

Remarks Based on available data, the classification criteria are not met.

Acute inhalational toxicity

Specific Target Organ Toxicity (STOT)

Remarks Based on available data, the classification criteria are not met.

11.2. Information on other hazards

Endocrine disrupting properties with respect to humans

No data available.

Other information

No adverse health effects are expected from this product provided it is handled properly and industrial hygiene measures are observed.

The contained ingredients can be harmful for humanx, but they are hermetically enclosed in the article and can't be released. The dismantling of the article is prohibited.

There is no data available on the product apart from the information given in this subsection.

SECTION 12: Ecological information

12.1. Toxicity

General information

The product is not expected to be hazardous to the environment.

12.2. Persistence and degradability

General information

not determined

General information / ecology

Do not discharge product unmonitored into the environment.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Disposal recommendations for the product

EWC waste code 16 04 01* waste ammunition

Allocation of a waste code number, according to the European Waste Catalogue (EWC), should be carried out in agreement with the regional waste disposal company.

Fully ignited cartridges may be disposed of as normal waste, they are not dangerous waste.

Unfired cartridges which cannot be used for their original purpose any more are to be handed over to authorized persons in adherence to the local regulations, item 14 of the dangerous goods regulations is especially to be adhered to.

Disposal recommendations for packaging

Packaging that cannot be cleaned should be disposed off in agreement with the regional waste disposal company.

SECTION 14: Transport information

Supplemental information

Relevant changes compared with the previous version of the safety data sheet are marked with: ***

This information is based on our present state of knowledge. However, it should not constitute a guarantee for any specific product properties and shall not establish a legally valid relationship.

Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations.

The mixture must not be used for other uses than those specified in section 1 without having first obtained written handling instructions.

It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.

The information in this safety data sheet must be regarded as a description of the safety requirements relating to the mixture and not as a guarantee of the properties thereof.
